HIGHLIGHTED PROJECTS

NEXTFLOW (A COMPLETE ERP SOLUTION)

2024-2025

Enterprise-grade ERP system

- Nextflow is a comprehensive ERP platform built to manage and automate an organization's entire operational workflow.
- It includes fully integrated modules for HR management, attendance, payroll, accounting, finance, inventory, project management, meeting scheduling, task tracking, and reporting.
- The system centralizes all business processes, ensuring seamless communication between departments and improving overall productivity.
- Its real-time analytics, automated workflows, and modular architecture make it suitable for both growing companies and enterprise-level operations.
- Tools: Laravel, Livewire, MySQL, Bootstrap, REST API
- ProjectLink:
<https://github.com/DaifulFardous/nextflow.git> (private)

CARTEX (A MODULAR ECOMMERCE BACKEND)

2024

Dynamic Modular E-commerce Platform

- Cartex is a powerful e-commerce backend solution ready to blend with any frontend framework, ensuring flexibility and seamless integration.
- Built with a full modular-based REST API architecture, making it highly scalable, maintainable, and easy to extend with new modules.
- Includes an intuitive media management system using Dropzone.js and Bootstrap modal for single or multiple image selection.
- Features a comprehensive variant system with dedicated SKU, stock, price, and image per variation.
- Tools: Laravel (Modular Architecture), MySQL, jQuery, Bootstrap, Dropzone.js, REST API
- ProjectLink:
<https://github.com/DaifulFardous/cartex.git> (private)

SCHOOLSYNC (A LEARNING PLATFORM)

2023-2024

Final Year Design Project

- SchoolSync is an educational platform designed to boost students' cognitive growth in their early years. Focusing on schools, it offers personalized learning, live progress tracking, and instant machine feedback. Through adaptive learning and cognitive improvement techniques, it enhances critical thinking and overall development. Parents can also monitor their child's progress, ensuring a well-rounded educational experience.
- Tools: Python, Laravel, React.js, MySQL, TensorFlow, PyTorch
- ProjectLink:
<https://github.com/DaifulFardous/SchoolSync.git>
